VISIONARY
GALA

The Visionary Gala

October 26, 2023 - The Daniels Spectrum (585 Dundas St E)

The Event

Our **Visionary Gala** is a formal fundraising event that attracts over 250 guests in support of inspiring the next generation of young minds. Together with community members, leaders, and city builders, the 2023 Visionary Gala will provide the opportunity to experience up close our BOLD new mission - **to transform communities, society, and the planet through equitable access to STEM**. The sold-out event includes a cocktail reception, gourmet dinner,—exceptional entertainment and dancing. Guests in attendance include:

- Leaders of corporations, organizations, and educational institutions
- Corporate and not-for profit board members
- Government officials
- Young professionals and active community leaders
- Youth from the communities that we partner with

[Watch this short video](#) with highlights from previous events.

About Visions of Science

Visions of Science is a charitable organization that aims to transform communities, society and the planet through equitable access to science, technology, engineering and mathematics (STEM). We facilitate year-round opportunities for children and youth to explore STEM learning, achieve academic success, develop as leaders in their communities and obtain meaningful career opportunities. We are committed to advancing STEM equity by focusing our effort towards engaging Black and other racialized youth from low-income communities who often experience significant barriers to participation and are traditionally underrepresented in STEM.

To date, we have consistently impacted:

- 30+ communities across the GTA
- 1000+ youth annually
- 15,000+ youth to date and counting!

Sponsorship Opportunities

Sponsorship of this event offers brand building and recognition opportunities that can be tailored to meet your company’s strategic objectives. Benefits also include the potential for positive media exposure and networking opportunities. Join us as we celebrate the importance of STEM education and raise vital funds for passionate youth from across the city!

Recognition in the event promotional materials & video reel	Logo	Name	
Recognition in 2023 annual report	Logo	Name	
Social media recognition before and during the gala	✓		

**All sponsorship levels include a donation receipt for maximum eligible upon request*

Your Impact

The Visionary Gala offers a tremendous opportunity to positively impact the lives of children and youth from low-income communities. Funds raised will support the vital programs offered by Visions of Science to ensure that youth continue to access free, consistent educational programming all year round. The funds raised will support Visions of Science to:

- Deepen our impact in **10** core communities
- Increase our reach to **10,000** youth and families annually
- Expand support to **5000** classroom teachers annually

We believe that when youth **understand the possibilities** within STEM and **have unhindered access** to **explore every opportunity**, they have the *full power* to choose how they contribute to shaping the world around them.

Let's build the STEM future, now.

For more information or to discuss these opportunities please contact:
